PROFESSIONAL SUMMARY

FULL-STACK DEVELOPER & AI ENGINEER experienced in building modern web applications, AI-powered products, and scalable digital solutions.

EDUCATION

A.P. Shah Institute of Technology, Thane

May 2023 – Aug 2027

Bachelor of Engineering (B.E.) – Data Science

CGPA: 7.82/10

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java.

Frameworks/Libraries: React, Next.js, Node.js, Express.js, Tailwind CSS.

Tools & Platforms: Git, GitHub, Docker, Vercel, MongoDB, Postman.

GenAI & AI Stack: Multi-Agent Systems, RAG Systems, LLM Orchestration, Prompt Engineering.

DevOps & Cloud Computing: CI/CD (GitHub Actions), Amazon EC2, VPS Management, Linux Deployments.

Web3 & Blockchain: Ethereum · Stellar · Monad · Smart Contracts · Web3 Development

EXPERIENCE

Software Development Intern

Aug 2025 – Dec 2025

Forbid Fire, India – Hybrid

- Designed and launched a responsive website that increased client engagement by 3x.
- Improved SEO score by 40+ points.
- Integrated Git-based version control and best practices implemented for maintainable and scalable front-end architecture.

GenAI Engineer Intern

Jun 2026 – Aug 2026

Impic Labs – Hybrid

- Developed advanced multi-agent AI workflows to automate content pipelines, accelerating delivery by 5x.
- Built scalable microservices that perform well in high-traffic production.
- Deployed RAG systems to a production Linux VPS using Docker, CI/CD pipelines powered by GitHub Actions.

PROJECTS

LayerFlow.ai – Autonomous Multi-Agent AI Platform

[Live Link](#)

Python, LLM APIs, LangChain/LangGraph, Web Search APIs, FastAPI, React/Next.js, PostgreSQL

- Built a 6-agent AI research and fact-checking system that cross-verifies information across GPT, Gemini & Claude, detecting contradictions and hallucinations.
- Automated the pipeline from query → research → verification → citation → confidence scoring → final report, reducing manual fact-checking.

PharmaCare.AI – Smart Pharmacy & Telemedicine Platform

[Live Link](#)

React.js, Node.js, Express.js, MongoDB, Firebase Authentication, Gemini 2.5 Flash API, WebRTC, Socket.io, AWS

- Digital health records, role-based access control, AI safety/moderation, secure WebRTC telemedicine, and end-to-end healthcare workflows.
- AI healthcare assistant, online medicine ordering with prescription verification, doctor appointment booking, and real-time video consultations.

MicroWorks – Decentralized Micro-Task Marketplace

[Live Link](#)

Next.js, React, TypeScript, Solidity, Foundry, wagmi, viem, Monad

- Built a decentralized micro-task platform with **on-chain verification and instant payouts** using Solidity and Monad.
- Developed smart contracts for **escrow, automated grading, rewards, XP/streaks, and leaderboards**, integrated with React via wagmi/viem.

SKILLS

Leadership: Founder of Apex Mumbai Tech Community (1k+ member), hosted multiple events, IIT Bombay Techfest Campus Ambassador, LYP Coordinator.

Achievements: Won 15+ competition including National & State-level hackathon, Open Source Contributor, IBM Professional, Google, Microsoft Azure, AWS, IIT Bombay Certifications.
